Output

Element not found.
Comparisons: 39
Execution Time: 550 ns

BINARY SEARCH
Element not found.
Comparisons: 5
Execution Time: 160 ns

=====

PERFORMANCE COMPARISON

=====

Algorithm	Comparisons	Time (ns)

Linear Search	39	550
Binary Search	5	160

=====

CONCLUSION

=====

Linear Search works on unsorted data.

Binary Search works on sorted data.

```
=====
PERFORMANCE COMPARISON
=====
```

Algorithm	Comparisons	Time (ns)
Linear Search	39	550
Binary Search	5	160

```
=====
CONCLUSION
=====
```

```
Linear Search works on unsorted data.
Binary Search requires sorted data.
Binary Search generally requires fewer
comparisons for large datasets.
```
